Qatar Inspection Services

Qatar Inspection Services W.L.L (QIS) is an approved, leading Non Destructive Testing Agency in Doha - Qatar. Its methods and systems have the approval and certification of the renowned ISO 9001-2000. The company's qualified technical personnel have been approved by The Supreme Council for Environment Natural Reserves (SCENR), Qatar. The company Inspectors are certified by TWI, UK (CWSIP). All ASNT Level II technicians are qualified as per SNT-TC IA norms.

The area of expertise covers both Non Destructive Testing (NDT) and Inspection services for both Offshore and Onshore Oil, Gas, Petrochemicals, Power and Infrastructure sectors. The scope of services performed includes Industrial Radiography Testing (Gamma Ray & X-Ray) for all relevant applications. The wide range of capabilities covers Radiography (Gamma & X-Ray), Ultrasonic Examinations, Ultrasonic Thickness checking, Magnetic Particle Examination, Dye Penetrant Testing. Apart from these tests, Vacuum Box Leak Testing, Hardness Testing, Positive Material Identification (PMI), Pre & Post Weld Heat Treatment (PWHT) is also done.

QIS also has a team of qualified Welding Inspectors on hire for industrial needs. The listed services now available in-house in a controlled and monitored environment can also be extended to the field as per client's requirements.
