

MADINA GROUP

Operational Excellence

Madina Group WLL, is Qatar's premier engineering, procurement, construction, maintenance, turnaround & shutdown and oil & gas support services company, with in-house capabilities to provide safe, innovative and cost-effective engineering solutions to the highest international standards.

We offer clients a 'one stop shop' approach to all services related to engineering, construction, maintenance, safety training, inspection, access solutions and specialised manpower.

Operating since 1997 Madina Group's mission is "Operational Excellence", via the provision of delivering high-quality services predominantly to the oil & gas, power, process and petrochemical industries.

HSSE is at the forefront of what we do, and we strive to deliver innovative ways of ensuring this. We recently developed and launched SALAMA which is a hands on interactive HSSE board game and APP, complementing our unique Behavioural Based Safety (BBS) approach. We never compromise on safety.

We have several facilities located around Qatar, including C Ring Road Doha, Salwa Road Industrial Area and Ras Laffan Industrial City.

Madina Group consists of four respective companies:

Madina

MADINA: A leading engineering, procurement, construction and maintenance company. With in-house capability, management expertise and a multi-skilled workforce to provide safe, innovative and cost effective engineering and fabrication solutions. Madina's core business streams means we are able to support clients from the very source to the end user for the full life-cycle.

Madina's services include; shutdowns and turnarounds, operations and support, fabrication, maintenance and asset management, specialist manpower supply, electrical and instrumentation, EPCM mechanical and access solutions.

QISC

QISC: With the largest quantity of accredited bodies in the region, QISC is the market leader in Health and Safety Training, HSE manpower supply, HSE consultancy and Fire Protection assessment and compliance, providing approved courses by OPITO, PERI, CISRS, NEBOSH, ECITB, PASMA, IPAF, QP and many more, plus our in-house developed courses, including SALAMA.

Our main areas of training and consultancy cover; HSE, defensive driving, road safety, emergency response, marine and survival and access lifting and load control

QIS: Utilising the latest techniques and advanced inspection equipment that can meet our clients advanced and conventional NDT and inspection needs. QIS hold full QP, ISO, OSHAS, LEEA approval over various disciplines, we are ready to meet any requirement.

QIS's services include; advanced and conventional NDT, inspection for plant and lifting, post weld heat treatment, fire extinguisher repair and maintenance and rope access

SEVERN GLOCON QATAR (SGQ): SGQ provides a complete turnkey solution of valve products, services and recertification tailored to specific industry needs. SGQ utilises internationally recognised methods and practices, with full OEM support and backing.

Services include; supply of valves and spares, repair, maintenance and testing of valves, instrument work and calibration of control valves, retrofitting of control valves, valve related shutdown services, mobile workshop facilities and supply of skilled valve technicians.
