Facilities

We have permanent modern workshop facilities strategically located in the Salwa industrial area in Doha and in the RLIC support services area of Ras Laffan. Our 33,500 square meter covered workshop facilities rank among largest in Qatar. The proximity of our workshop and training facilities to oil and gas plant facilities in Ras Laffan Industrial City provide us competitive advantage in terms of response time, ease of logistics and delivery. We also have expertise in setting up customized site facilities to suit the project requirements.
