Elements 11 through to 25 will be performed practically.

Certification

Each delegate will be issued with a Qatar International Safety Centre Certificate.

Validity Period

2 Years

Min & Max No. of Delegates

Minimum: 4

Maximum: 12

Health & Fitness

All personnel who participate in practical activities specified in this course outline must be physically and mentally capable of participating fully.

All students will be asked to complete a Qatar International Safety Centre standard medical questionnaire prior to course commencement.

Delegates are required to declare any current or pre-existing medical conditions which may be exacerbated by, or impair their ability to complete, the training/assessment programme. Should this be the case, the individual may be required to provide an authentic medical certificate issued since any identified medical condition was diagnosed.
