

Course Title: OPITO Helideck Assistant (HDA) Further - 7023

Overview (Target Audience)

This training is designed for currently-appointed OPITO-certified HDAs that are required to revalidate their OPITO HDA certification by refreshing and updating their knowledge and skills in aspects of their role that they cannot practice in the workplace.

Course Duration

2 Days

Course Pre-requisites

The prerequisites for this training programme are:

a) A valid OPITO HDA Helideck Emergency Response Team Member Training Certificate

AND valid OPITO HDA Initial Training Certificate

OR

b) A valid OPITO HDA Further Training Certificate

Also please refer to Health & Fitness for medical requirements.

Course Learning Outcomes

The delegate's learning outcomes are set out below:

To successfully complete this Programme, delegates must **demonstrate** the following:

1. Techniques for keeping calm during an emergency response.
2. Asking for assistance if overwhelmed by the emergency situation.
3. Effective communications with HLO and other team members – clear and concise communication.
4. Updating HLO on progress against the plan.
5. Responding appropriately to HLO direction during a helideck emergency
6. Effective execution of emergency response tasks.
7. Conducting helicopter incident firefighting operations.
8. Correct use of breathing apparatus (BA) when instructed by HLO.
9. Conducting effective Helicopter/helideck SAR techniques.
10. Responding to non-firefighting operations during a helicopter incident.

11. Effective use of fixed and mobile firefighting systems.
12. Correct casualty handling techniques.

Learning Outcomes 1 through 12 are to be assessed during practical exercises.

Certification

Each delegate who is successful on OPITO HDA Further training will receive an OPITO HDA Further Certificate and be registered on the central register which is operated by OPITO.

Validity Period

2 Years

Min & Max No. of Delegates

Minimum: 4

Maximum: 12

Health & Fitness

All personnel who participate in practical activities specified in this course outline must be physically and mentally capable of participating fully.

All students will be asked to complete a Qatar International Safety Centre standard medical questionnaire prior to course commencement.

Delegates are required to declare any current or pre-existing medical conditions which may be exacerbated by, or impair their ability to complete, the training/assessment programme. Should this be the case, the individual may be required to provide an authentic medical certificate issued since any identified medical condition was diagnosed.
