

Course Title: OPITO HDA – Helideck Emergency Response Team Member (HDA-HERTM) – 7022

Overview (Target Audience)

This training programme is targeted at currently-appointed or candidate Offshore Helideck Assistants (HDAs) that require OPITO-certified emergency response training in helideck and helicopter emergencies as part of their overall competence requirement.

Course Duration

4 Days

Course Pre-requisites

There are no Prerequisites for OPITO HDA-HERTM Training, however please refer to the Health & Fitness for medical requirements.

Course Learning Outcomes

The delegate's learning outcomes are set out below:

To successfully complete this programme, delegates must be able to:

1. Define the key role and key responsibilities of the HDA HERTM.
2. State the main elements of helideck emergency response plan.
3. Identify types of potential offshore helideck emergencies.
4. State the general firefighting safety goals and objectives.
5. Explain the purpose of typical helideck emergency systems and controls.
6. Explain the main differences between helideck emergency response on a main fixed or floating installation and a normally unattended installation (NUI).
7. Communicate effectively with HLO and team members.
8. Respond appropriately to HLO direction in emergencies.
9. Under direction from the HLO: approach the incident area in a controlled manner – continually assessing how the changes in the emergency could impact on the safety of other HERT members.
10. Conduct BA operations in accordance with HLO directions and safe practices.
11. Conduct firefighting operations effectively using fixed and mobile equipment.
12. Update HLO on progress against the plan at appropriate times.
13. Under direction from the HLO: respond to non-fire helideck emergencies.
14. Conduct effective search and rescue for missing persons and casualties during the emergency.
15. Use correct casualty handling techniques

16. Work with ER back-up team when required to do so.
17. Report to HLO any human factors that may affect individual or team performance during the emergency (Team Learning Objective).

Learning Outcomes 7 through 17 to be assessed during practical exercises.

Certification

Each delegate who is successful on OPITO HDA-HERTM training will receive an OPITO HDA-HERTM Certificate and be registered on the central register which is operated by OPITO.

Validity Period

2 Years

Min & Max No. of Delegates

Minimum: 4

Maximum: 12

Health & Fitness

All personnel who participate in practical activities specified in this course outline must be physically and mentally capable of participating fully.

All students will be asked to complete a Qatar International Safety Centre standard medical questionnaire prior to course commencement.

Delegates are required to declare any current or pre-existing medical conditions which may be exacerbated by, or impair their ability to complete, the training/assessment programme. Should this be the case, the individual may be required to provide an authentic medical certificate issued since any identified medical condition was diagnosed.
